MEMORANDUM FOR: Deputy Director for Intelligence

FROM:

[REDACTED]
Director of Global Issues

25X1

SUBJECT: Dissemination of USSR Energy Atlas [REDACTED]

25X1

1. In compliance with NFAC N 51-12, I am requesting your approval for dissemination of OGI's forthcoming unclassified USSR Energy Atlas. While the Atlas has been specifically prepared as a reference aid for CIA and other US Government policymakers and analysts, its topic is of widespread interest to the academic and business communities. [REDACTED]

25X1

2. The 80-page Atlas has more than 150 graphics, including 70 photographs and 35 maps. It also has a 14-page gazetteer/index and a large reference map. Preparation of the Atlas has required the contributions and skills of [REDACTED] Agency and other US Government personnel, as well as numerous external academic and business contractors. Within the Agency, it was coordinated with SOVA, OIA, OSWR, OCR, and CPAS. [REDACTED]

25X1

25X1

3. A 20,000-copy press run is planned by P&PD for April with distribution to follow in May. In addition to the standard Atlas dissemination, we plan to disseminate copies to selected academics, contractors, and consultants with whom the DDI normally does business (see attached lists). [REDACTED]

25X1

US Government Printing Office	10,000
Federal Depository Library Program	1,025
Library of Congress Document Expediting Program (DOCEX)	625
National Technical Information Service (NTIS)	100
